ACCIDENTS

AN ACCIDENT may be trivial or serious in effect; temporary or prolonged disability. No one can foretell the proportion of disaster any more than they can predict when it may occur. But when it does befall it is a welcome, and maybe vital, compensation to be so insured that money is coming in to help in the payment of doctor bills.

Bode-McDonough Wedding
This Morning at Church
Miss Lillian Bode, daughter of Mrs. Julia Bode of north State street and Charles McDonough, son of the late Mr. and Mrs. J. F. McDonough, were united in marriage this morning at 7:30 o'clock in St. Mary's Catholic church. Rev. Fr. William J. Spickerman, pastor, celebrated the low nuptial mass. N. G. Irwin sang several hymns, with Miss Madge O'Brien presiding at the organ.

The bride was attired in a crepe dress of dark brown. She wore a corsage of Johanna Hill roses. Miss Margaret Bode, attended her sister as bridesmaid and wore a crepe dress in a deep shade of autumn brown, with accessories of the same color. Her corsage was of Columbia rose buds. Francis T. Hartman, a cousin of the bridegroom served him as best man. After a wedding trip through Ohio and West Virginia, Mr. and Mrs. McDonough will be at home at 458 Ballentine avenue. For traveling, Mrs. McDonough wore a suit of a light brown material. A wedding breakfast was served to the immediate bridal party at Ringer's Inn, following the ceremony.

Mrs. McDonough is employed at the Susquehanna Silk mills. Mr. McDonough is an employee at the Central Fire station.

Just Things

—BY EDNA S. DUTTON—

Getting Even

EVERY dog has his day and every cat his night, so they say and by that same token every motorist that gets held up at street crossings by independent and leisurely moving pedestrians eventually gets his chance to yowl "goody" at some stage of the game. You're it if the motorist makes it to the yellow line in time to head you off and his your game if you make the middle of the street first so it's about an even break whichever way it goes. One motorist showed great restraint we think, when one night this week one of those slow motion pedestrians got the drop on him and he had to stop just when he had a good chance to make the intersection, and just as she stepped nonchalantly on the sidewalk, she stubbed her toe and nearly saw stars. If that wasn't a chance to shriek ha ha, my proud and naughtily beauty, we'll call the bet. There wasn't even a giggle, audible at least.

Loyalty?

WITH politics a timely topic and one on which everyone has an opinion, even the women take time out from discussing the merits of the new durbies to air their knowledge of political topics. A discussion recently led to the topic of voting and the conversation eventually took on the tone of an experience meeting, in which the fears, hopes and emotions of those running for office and those boosting candidates were laid on the boards and here's the one that won the box of quilt topstaples. One of the fair conversationalists it seems had been louted for one of the major class offices in her senior year at school and did the

what? Well, I ask you, does a kitten like cream? She had something better than a Chinaman's chance but it was close; when the voting time arrived what did she do but vote for her opponent thinking it wouldn't be quite the thing to vote for herself. She called it loyalty, nobility or something like that, but now we have a hunch she has another name for it. Well, she got it but we ask you did she deserve it?

A Good Loser

OUR vote for the best loser we've seen yet goes to a youngster we saw at the little grand-circuit races recently. It sure was his "not-winning" day for even when he got the horse that just couldn't lose, he lost the race. He was on hand for every race except the last one and when he saw his chances go a-glimmering he just took it with a better-luck-the-next-time grin. But honestly we would like to have seen him win just once. Anyway, if that's the way he is going to use things, and it evidently is, we'd like to see him, oh, say 25 years from now.

MARION MERCHANTS PLAY ASHLAND NINE IN OPENER AT NOON

Five Other Games Scheduled at One Hour Intervals at Lincoln Park.

12 noon: Marion Merchants vs. Ashland Rubber Co. of Ashland.
1 p. m.: City Coal & Service Co. of Marion vs. Chandler Outdoor Ads. of Lima.
2 p. m.: Marion Berry-U-Wel Store vs. Bickel's U. C. Grocers.
3 p. m.: Bickel's Brothers of Findlay vs. Marion All-Stars.
4 p. m.: Recreation Billiards of Marion vs. Delaware Elks.
5 p. m.: Elks of Marion vs. Columbus vs. Equity Union Creamery of Lima.

That's the way the teams will line up Sunday afternoon at Lincoln park for the second day's competition in the Central Ohio recreation baseball tournament. The first four games are first round contests, the latter two are second round games. Six other first round games were played last Sunday.

With the increase in interest which has been apparent since the successful opening of the tourney last Sunday it is not unlikely that the crowd of this week will eclipse the 1,200 mark set last Sunday. Plans have been made to care for at least that large a number of spectators.

Workers were busy today putting the grounds in tip-top condition for play Sunday. The diamond was being scraped and put in the smoothest possible condition for the players while the grandstand was being thoroughly cleaned for the benefit of the spectators.

Norris Crisler of Marion and Ed Johnson of Prospect will again umpire the games this week. These two officials handled the six games last Sunday without a protest of consequence during any of the six bitterly contested games.

The first game of the day will commence promptly at 12 noon. It is the intention of the management to complete the six games as near as possible. Last Sunday it took just 10 minutes more than scheduled time to play the half dozen contests. The games are given innings in duration. In case of a tie at the end of seven frames play will continue until the end of nine innings. If a tie still exists, the game will be called and the teams required to return and play off the deadlock later in the tournament.

LACEY, BUSH WIN IN TWILIGHT TOURNEY

Corrine Lacey and John Bush were winners of the first twilight golf tournament yesterday over the Mar-O-Del golf course. Miss Lacey and Bush shot a 60 to finish ahead of Viola Peacock and Joe Rinnert with a 62. The winners were awarded balls as prizes.

The Mar-O-Del club will hold a blind bogey tournament Sunday starting at 9 a. m. This tournament will be open to both members and guests fee \$2.50.

ONE AMERICAN LEFT IN TENNIS TOURNEY

Mrs. Helen Wills Moody Only U. S. Player Not Eliminated by British.

By The Associated Press
FOREST HILLS, N. Y., Aug. 22.—Between Great Britain and her second straight triumph in the women's United States tennis championship stood today the formidable figure of Mrs. Helen Wills Moody, six-times holder of the title.

A series of smashing victories in the quarter-finals yesterday gave British stars three of the semi-final round brackets with only Mrs. Moody left to carry on for the United States.

Despite the impressive manner in which Betty Nuthall, the defending champion; Phyllis Mudford and Mrs. Elton Bennett Whittinghall swept into the semi-finals, none is accorded better than an outside chance of halting Mrs. Moody.

Today's pairings pitted Mrs. Moody against Miss Mudford and Miss Nuthall against Mrs. Whittinghall. Flashing a deadly net attack, put Helen Jacobs, of Berkeley, Calif., previously considered a sure semi-finalist, out in a brilliant three-set duel, 3-6, 6-3, 6-5.

Mrs. Moody dropped only three games in eliminating Dorothy Wessel of Sacramento, Calif., 6-1, 6-2, and Miss Nuthall had no more trouble with her countrywoman, Mrs. Dorothy C. Shepherd-Barrow, 6-2, 4-1.

SHARKEY RATED AS LEADING U.S. HEAVY

Boston Gob Given Challenger's Post in Quarterly N. B. A. Rankings; Loughran Next.

By The Associated Press
CHICAGO, Aug. 22.—The championship committee of the National boxing association, in its quarterly rankings of brawlers, rated Jack Sharkey of Boston, as the most prominent challenger for the world heavyweight title owned by Max Baer of Germany.

Back of the Boston saltzman in order comes Tommy Loughran of Philadelphia, Ernie Schacht, Sharkey's protegee, Mickey Walker, who gained a draw with Sharkey in their recent meeting, Primo Carnaro, the Italian giant; and W. L. Stirling, who formerly ranked as the chief challenger, but who dropped down the list after his unsuccessful bid for the heavyweight title. Tuffy Griffiths of Sioux City, Ia., is number seven, and is followed by Charley Reis, of the Duluth youngster, Paulino Uzcudun, the veteran Spaniard, and Steve Hannan, another promising youngster.

Two divisions, the light heavyweight and middleweight, are without recognized challengers. Maxie Rosenbloom, who recently was voted out of the light heavy title by the N. B. A., however, ranks as number one in his class. Following Rosenbloom in the ratings are Lou Seneca, Jimmy Slattery, George Manley, Bertling Bozo, Billy Jones, Joe Banovic, Al Gainer, Bob Olin and Ace Hudson.

Smith Tops Middleweight
The first 10 middleweights according to the ratings are: Harry Smith, Dave Shedd, Vince Dundee, Marcel Tini, Tiger Thomas, Ben Job, Lon Harvey, Young Terry, Ignacio Ara and Gorilla Jones. Rankings in other classes are: Welterweights—Champion.

Young Jack Thompson, followed in order by Young Corbett III, Jimmy McLaughlin, Lou Brouillard, Jackie Fields, Babe Joe Gaba, Rocky Lawless, Johnny Indrismo, Billy Townsend, Jackie Brady and Jack Hood.

Junior Welter—champion, Tony Canzone, Jack (Kid) Berg, Manuel Gutierrez, Julio Suarez, Tony Herrera, Steve Haladko, Sammy Mandell, Joey Goodman, Ralph Lanny, Mickey Cohen and Tommy Grogan.

Lightweights—champion, Tony Canzone, Billy Petrolie, Louis (Kid) Kaplan, Al Singer, Johnny Julek, Sammy Fuller, Wesley Ramsey, Sammy Dorfman, Ray Miller, Andy Callahan and Justo Suarez.

Bantam in Challenger
Junior lightweights—champion, Kid Chocolate, Benny Bass, Roger Bernard, Al Foreman, Lew Massey, Davey Abd, Pete Sarron, Tracy Cox, Joey Costa, Lee Feldman and Boutin, Philippine champion.

Featherweights—champion, Ben Battalio, Earl Mastio, Freddy Miller, Kid Francis, Eddie Sheer, Fido La Parba, Bushy Graham, Claude Varner, Phil Zwick, and Johnny Cuthbert.

Bantamweights—champion, Al Brown, Pete Santol, Newbury Brown, Vidal Gregorio, Archie Bell, Art Grogan, Willie Davies, Eugene Head, Jimmy Thomas, Harry Flors and Junior Kinsler.

Flights—champion, Frankie Genaro, Speedy Wolcott, Phil Tobias, Midget Dado, Jackie Brown (England), Young Peret (France), Young Pancho, (Philippines), Victor Farnand, Steve Rocca, John Sili, and Happy Atherton.

SPORTS

BY BOB KIRKPATRICK
Sports Editor, The Star

I have at hand today a letter from a softball fan concerning the payment of benefits to victims of a pair of accidents in games here this summer. A benefit game was played under the direction of the city commission at which \$100.00 was realized. Half of this is to go to each of the injured men, Stew art Jones and Don Cox.

A checkup of this money reveals that it has not been paid. The check has been written and is now awaiting delivery. A considerable period of time during which the commission did not hold a meeting has caused the delay in payment. The secretary was not authorized to pay out the money without the commission's order. The checks will be delivered within a few days.

As for the money realized from a benefit movie sponsored by the Y-M-C-A club, an effort to check either the amount or the time of payment has as yet been fruitless. The club manager is charged with the benefit report or pay any money until one or two of the team managers account for tickets which he says they have not failed to do. It seems a rather long time for an accounting. If there are any managers who have not turned in tickets or money, they should do so at once. They have taken more time necessary time now.

The city recreation ball commission has made the target for considerable criticism due to its action Monday night in allowing the Kappas to use three ineligible men in the Little World's series. It appears that this criticism has been unwarranted.

The public has a right to go to the Little World's series games expecting a good contest, as nearly even as two full teams can make it. Without the three men which the Kappas have been given there would have been no contest. The Kappas lost so many men to other teams that a full team was not available to play in the series. The result, had they not been allowed extra men, would have been six or seven men on the field against nine for the opposition.

Personally, I wouldn't have had any particular regrets at having seen the Kappas soundly beaten by having less than the regular number of players from anything but the standpoint of a spectator. From a competitive standpoint the club should have looked ahead far enough to have foreseen the impending emergency. However, were I a spectator and the commission allowed a team with less than enough players for a full lineup, I would admit I would be certain to hear, "I wish I'd have a right to do so. As it is, the commission acted for the best interests of a good Little World's series. There would be no feather in the hat of a team that beat the Kappas when the latter had a makeshift lineup. The managers of the other three teams know that. That's why they agreed to let the extra three men play."

TWENTY GRAND IN TRAVERS STAKE

By The Associated Press
SARATOGA SPRINGS, N. Y., Aug. 22.—The sixty-second running of the Travers stake, \$3,000 added, drew a high class field of three-year-olds headed by Mrs. Payne Whitney's Twenty-Grand.

Other probable starters were Mrs. Katherine E. Hill's Sun Meadow, the retired stud's Sir Ashley, the Wheatley stable's Blenheim, and Twenty-Grand's stable mate, S. T. Brideaux.

The race, worth some \$40,000 to the winner, is run at a mile and one-quarter.

GALLON NETTERS TO PLAY HERE SUNDAY

Marion will meet Gallon Sunday at 1 p. m. in a return tennis match at the Steam Show courts. Marion played in Gallon last Sunday. The return doubles matches of the Ongood company are tournament yesterday at the Ongood courts. Glen Perry and Mildred Hollingshead won from Bob Wolfhager and Eleanor Williams. The scores were 6-4, 6-4.

CAREY NINE TO PLAY COLUMBUS OUTFIT

Don Donelson's semi-pro baseball team of Carey will play the Turf club, a colored team of Columbus Sunday at the rubber plant field in Carey. The Turf club is a highly rated aggregation and is expected to prove tough for Carey.

Don V. Haller, star football player at Transylvania college, Lexington, Ky., from 1920-1922, will become head coach at his alma mater this fall.

PRESBIES-IRISH ARE RATED TOSS-UP FOR SECOND POST FIGHT

Kappas Decided Underdog; Electricians Have Too Many Hurlers and Extra Reserve Strength.

BY BOB KIRKPATRICK
Sports Editor, The Star

World's series to decide the winner of the recreation baseball championship of Marion due to get underway Monday at Lincoln park, the time is at hand for a few observations concerning the strength of the various participants of the series. There are four entries, the C. D. & M. of the Industrial, St. Mary of the No. 1 Sunday school, First Presbyterian of the No. 2 Sunday school and Kappas of the Commercial league, the four having won the right to play by finishing on top in their particular league.

Although it is absurd to even think that followers of the other three series entries will ever admit such a thing, it is a fact that the C. D. & M. Electric Co. of the Industrial league has the best chance of going through the series to the championship of the city. The First Presbyterians and St. Mary's will be equal favorites to battle it out for the runner-up post while the Kappas do not appear to have the power to finish better than fourth in the four team competition.

Two Good Pitchers
One of the biggest points in favor of the Electricians finishing on top is the fact that they have two high class hurlers on their roster and at least a third who can do a better than average job of tossing. The reserve strength of the team is also much better than that of the other three, another big factor in their favor. Apperget and Gamble are the two first string hurlers.

The C. D. & M. has the best balanced team of the four. There are not a lot of long distance clubbers on the team but the batting array probably boasts the highest collective average of the four. The Presbyterians are the only other team who can compare with them in hitting ability. Not a spectacular team by any means, the Electricians are steady and much more likely to stand the pressure of the series without cracking than are the other teams.

Not Much Difference
The Presbyterians and Irish have little to choose between them.

ASSOCIATION TEAMS FINDING RIGHT POSTS

St. Paul Appears Definitely "in" for Pennant, with Indians Second.

By The Associated Press
CHICAGO, Aug. 22.—Little by little American Association clubs are locating the spots in which they belong—but it has taken longer than usual.

The ultimate winners in 1929 and 1930 put out in front and remained there and the contests for other places were not exceptionally close. This season, however, it was not until after July 4 that St. Paul definitely established itself at the peak, and only recently has Indianapolis been able to get a decent hold on second place.

Kansas City has moved into third position and appears likely to remain there, while Minneapolis and Toledo are mere or less definitely established in seventh and eighth places. Milwaukee, Louisville and Columbus are all still candidates for the remaining first division berth.

Chet Nichols, obtained from the Philadelphia Nationals, pitched St. Paul to a 5 to 1 victory over Louisville in the opening game of the series. Nichols held the Colonels to four hits.

Indianapolis came from behind to take a 10 to 5 decision from Minneapolis. The Indians were down 5 to 0, going into the fifth, but scored in every inning except the sixth to gain their edge.

Kansas City and Columbus belted 11 innings before the Blues were able to accomplish a 2 to 1 victory.

Lefty Dwyer for Columbus, and Lou Fette, each went all the way and each gave eight hits.

Fred Steffy and Johnny Cooney put on a pitching duel at Milwaukee, with the former hurling the Brewers to a 2 to 0 decision over Toledo. Each pitcher gave seven hits.

RUTH CLOUTS GOING HOME RUN AS YANIS TRIM ST. LOUIS, 11-5

Athletics and White Sox Stage Slugging Match Champs Winning, 15-12.

BY HUGH S. FULLERTON, JR.
Associated Press Sports Writer

Babe Ruth has made 600 home runs in his major league career. In the third inning of the Yankees-St. Louis game yesterday he topped one of George Blaholder's efforts far over the bleacher roof at Sportsman's park. It was a thirty-five four bagger of the current season and brought his total for the 19 years of his major league career up to 600, a mark never before attained or even threatened by any other major leaguer. The Babe reclaimed the bullet from the youngster who found it out in Grand boulevard, giving in exchange \$10 reward and a new autographed ball.

The homer started the Yankees on the winning rally in their 11-5 victory over the Browns. Lou Gehrig duplicated the feat a moment later.

Philadelphia's champion Athletics and the Chicago White Sox hammered out 24 hits between them, and although the Sox had a 10-0 edge in the hitting, Philadelphia won 15 to 12.

Washington's batters rained out a total of 15 hits off Clint Brown and Pete Jablonowski to take the fourth game of the series from Cleveland, 6 to 3, after losing the first three.

Boston and Detroit produced fewer hits in their clash but seven bases on balls off Eddie Dugan and Wilky Moore more than made up for the absence of blows and the White Sox tossed in five errors to make things easy for the Tigers to walk off with an 11 to 5 triumph.

Only one game in the National league survived a spell of threatening weather. In it, the Boston Braves took a close battle from the Pittsburgh Pirates by a 2 to 1 count to increase their margin to 1½ games in the struggle for fifth place.

Wally Berger's seventeenth homer was the important blow as Ben Cantwell kept the Pirates to six hits while Boston made seven off Ervin Brame.

MARKET
STEADYIn Highly Un-
der as Week
Closes.

Shoppers buying supplies for the week-end found many bargains on the markets today. Sweet corn at three dozen for 25 cents and tomatoes at five pounds for 15 cents, were among the offerings. Sweet potatoes were being offered today at seven pounds for 25 cents and green beans at four pounds for 25 cents. Other vegetable prices were practically the same as yesterday with supplies only fairly large. Pickles for canning sold at 25 cents a hundred and cucumbers at three for 10 cents.

Peaches, not so plentiful today, were selling at five pounds for 19 cents or \$1.40 a bushel. Watermelons were among the specialties today and were selling as low as 19 cents with a 35 cent top price. WHEAT SAGS
AFTER UPTURNCorn Also in Downward Slide
After Slight Early
Gain.

By The Associated Press
CHICAGO, Aug. 22.—For a few minutes, only early today wheat showed price upturns responsive to farm board disposal of 25,000,000 bushels of its huge surplus. The maximum wheat market advance was just 4 cent a bushel. Then a general sag carried quotations to below yesterday's finish, the market sympathizing with corn weakness. Wheat later showed losses all around. Corn opened 3/4 off to 4 1/2 up and soon underwent material declines, with all deliveries at a new low record for the season and stop loss selling in progress.

One of the foremost grain companies in Chicago issued a statement asserting that as far as prices were concerned the wheat-coffee market with Brazil would have no effect on the market finally, as Brazil raises no wheat but usually imports it from Argentina. As a direct result of the deal, the statement said, the United States has now released 25,000,000 bushels of Argentine wheat for the European market at the expense of North America. It was further asserted that the wheat disposed of to Brazil would set the farm board only about 10 cents a bushel, assuming that the barter was on a basis of 40 cents a bushel and deducting freight and storage charges, about 30 cents.

Prospective heavy deliveries on Chicago September contracts did much to send the corn market downward. Talk was current that the largest owner of cash corn had hedged his holdings by sales of September and that in the absence of a ready commercial outlet for his corn he would probably deliver a large amount of September contracts, the first of the coming month. Lack of sufficient commercial demand to absorb such deliveries was held to foreshadow a further recession in prices. Oats declined with corn.

Provisions reflected weakness of cereals.

TO MAKE LICENSE CHANGE NEXT MONTH

Auditor Delays Issuing New Cigarette Certificates Until After Tax Settlement.

Cigarette retailers under the impression that they must immediately obtain new cigarette licenses under provisions of the new license law enacted this year by the legislature need not worry about new licenses until notified by County Auditor Earl E. Thomas, the auditor said today.

The license obtained a few weeks ago under the old law will entitle retailers and wholesalers as well as to sell cigarettes until the county auditor formally issues the new licenses, which probably will be done in September, Auditor Thomas said.

The auditor made this announcement after several retailers had called his office, asking about the new licenses. Now busy checking off delinquent taxes and preparing for the semi-annual distribution, Auditor Thomas said no effort will be made to replace the old licenses with new for several weeks.

The Stars Say—

For Sunday, Aug. 25

SUNDAY'S horoscope emphasizes things of the spirit, the mystical, the unusual, according to the lunar trips to Neptune, dominating the day's affairs. Affairs secret, subtle and singular may intrigue, but with possible friction in the personal relations or contacts.

Those whose birthday it is may look for a year of unusual, singular or intriguing events and experiences. Benefits may accrue through these as with negotiations with secret bodies, mergers, rings, or other underground associations. New undertakings are under encouraging way. A child born on this day may be inclined to secret, subtle and curious adventures, research and experiences, which may be rounded to its profit and advancement if not to its personal happiness.

For Monday, Aug. 26

MONDAY'S astrological forecast is not a very happy or propitious one, although it holds signs of great activity and commotion. There are signs of turmoil and turbulence, sudden and ill-considered moves and disruptions, danger of employment agitation, and many stubborn obstructions and delays to be encountered. The most optimistic configurations show an exceedingly alert and discerning mind which may be able to devise ways and means to effect these results, but with persistence and weariness as well as wisdom.

Those whose birthday it is may be visited by a demon, vaguely and prudently in argument stubborn obstacles, disruptive situations, disputes, quarrels, violence, and turbulence. The mind will be found excellently stimulated and enlightened in cope with this perilous state of affairs. A child born on this day should be versatile, clever, keen, quick and shrewd, qualities needed to cope with its many obstacles in life.

"Service with a smile" may or may not be the slogan of those attractive girls working as gas station attendants in London, but they're certainly giving good measure of charm with the fuel they dispense. Owners of the station, a popular one near Victoria, say the girls are more courteous and give better service than the men, being smarter and cheerier in their manner toward motorists. UNEMPLOYED GIVEN WORK ON HIGHWAYS

Cleveland Chamber of Commerce Develops Plan To Aid City's Needy.

By The Associated Press
CLEVELAND, O., Aug. 22.—The Cleveland chamber of commerce stood sponsor today for a new unemployment relief measure to employ many thousands of men filling in the ditches along unimproved highways, after installing the drainage needed to improve the roads and to eliminate one of the most serious of all traffic hazards.

The chamber already has taken steps to put it in operation in Cuyahoga county, and is endeavoring to have Ohio highway department officials adopt it.

The plan is unusual in that almost its entire expense would be for wages. Where the work would be done, generally small areas would be ample.

The engineering requirements are simple, and the plan is one which could be put in operation with almost no delay.

The chamber estimated 2,000 men could be employed 30 hours a week for six months at 50 cents an hour on approximately 50 miles of ditched highways in Cuyahoga county. The work could continue until winter and be resumed in the spring.

The chamber claimed by grading over the ditches into well-ordered "shoulders" and the use of tile where needed, drainage of the highways could be improved. The resultant prolongation of the life of the highway, it said, would recompense for the cost of the filling-in project.

In addition, the chamber emphasized the desirability of removing ditches because they are the contributing cause of many fatal accidents.

old as you get from General Electric. A. T. & T. Standard Oil of Indiana, or any big railroad. Big business and little business, big men and little men, are alike.

WITH ALL HIS troubles, Uncle Sam's credit is still good. Secretary of the Treasury Ballantine asked for only \$50,000,000, was offered \$224,974,000, and borrowed what he wanted for less than half of 1 per cent a year. That must impress foreign nations, mainly of feeling 8 per cent and more.

NEW YORK supplies the usual news item. Behind the solid brick wall of a dilapidated left building, only six blocks from prohibition headquarters, a \$1,000,000 liquor plant is discovered, with 20,000 gallons of alcohol, enough to supply at least 2,301,000 high-powered drinks. This little tribute to the prohibition law was turning out 15,000 gallons of alcohol every two days. With tens of thousands of secret stills in the United States what is the total production of bootleg alcohol?

CAPT. HAWKS, champion American flier, continues his career. His latest record is a flight from New York to Fort Worth, Tex., in seven hours and fifty-seven minutes. He says there was a good deal of snow 14,000 feet up. On the way back Hawks expects to break nine or ten intercity records.

THOMAS H. CAMPBELL, Montana wheat farmer who showed Russia how to plant 30,000,000 acres, says the President should allow the unemployed to join the army and navy for six months or a year to supply them with food and lodging.

Supplying a man with uniform and other equipment and pay for six months would be more than the cost of his living at home, worse than the "dole."

The navy finds one good feature in the unemployment situation. While the last year there were only 45 desertions, compared with more than a thousand in 1927.

LABOR GOVERNMENT EXPECTED TO FALL

English Leaders Hurrying to London as MacDonald Party Faces Crisis.

By The Associated Press
LONDON, Aug. 22.—King George has decided to return to London immediately from Balmoral, Scotland, where he went yesterday with Queen Mary, a move which was interpreted by some political observers as fore-shadowing the early resignation of Ramsay MacDonald's labor government. It will travel by special train, reaching London early tomorrow morning.

Stanley Baldwin, leader of the Conservative party, which is the second strongest in the house of commons, is hurrying back from France and with the cabinet still in session on the budget crisis. It appeared the way was being prepared for a change in the government of Great Britain if that eventually should prove necessary.

The king's return newspapers say, means only one thing—that Prime Minister MacDonald has not been able to obtain sufficient support for his economic plan, either within his own party or from the opposition, and that the resignation of the labor government is imminent.

This development, the Daily News adds, may come within a few hours, but it would not necessarily mean a general election. A general election is unlikely to be held unless the king asks Mr. MacDonald to resign. No comment was available from the prime minister's office, where the cabinet was still in session.

Pearls Lost in Chicago River by Dodge Widow

By The Associated Press
CHICAGO, Aug. 22.—The Chicago Tribune said today that a string of jewels had been dropped by accident in the Chicago river near the Michigan avenue bridge, by Mrs. Hugh Dillman, widow of Horace Dodge, founder of the automobile company bearing his name.

Mrs. Dillman was the purchaser of a rope of pearls known as the necklace of the Empress Catherine II, a part of the crown jewels of the Czar of Russia, but whether these are the jewels she lost could not be ascertained. The Catherine pearls have been appraised at \$25,000.

The Tribune said that Mrs. Dillman lost the jewels when she landed from the Dillman yacht several days ago, but as there was some doubt as to whether they were the Catherine pearls, as it had been reported at the time of their purchase that Mrs. Dillman had given them to her daughter, Mrs. H. M. Cromwell of Philadelphia.

A diver has been busy for two days making soundings at the Michigan avenue bridge, but when asked to explain his business he said nothing, but kept right on diving.

Death, Pestilence Ride Flood Waters Through Chinese Cities

By The Associated Press
HANKOW, Aug. 22.—Death, destruction and desolation rode the crest of flood waters down the Yangtze river today causing probably the greatest calamity in modern history.

Unknown thousands had drowned, countless scores died daily of typhoid and dysentery while medical authorities warned that several weeks hence, more serious epidemics will rage.

Upwards of 30,000,000 persons were said to have been made homeless by the unprecedented surge of waters in the valley. In the Wuhan cities, Hankow, Wuchang and Hanyang, 400,000 refugees were counted.

Hankow presented a picture of destruction. Floating in the native section of this city in a boat, an Associated Press correspondent saw thousands of ten-story buildings submerged under water that covers the district from 10 to 15 feet deep. Larger edifices, including part of the plant of the Standard Oil Co. of New York, tumbled each hour as waters undermined foundations.

Military authorities, attempting to bring relief to refugees, fought not only the destructive force of flood waters, but superstitious which held thousands of natives in its grip.

Over Hankow many thousands of refugees sat on roof tops, a shroud of cloth hung overhead, acent protection against the boiling sun which caused the temperatures to approach 100 degrees.

Many had been removed to safer places but other thousands refused to move, convinced Hankow was doomed, refusing help from their nearly starving relatives.

Authorities agreed they were unable to cope with the stupendous needs for emergency relief. Many thousands were doomed, they said unless immediate relief arrived.

HOOPER, GIFFORD TO CONFER ON RELIEF

By The Associated Press
WASHINGTON, Aug. 22.—Unemployment relief plan President Hoover today was prepared to work out its preliminary details with Walter S. Gifford, newly appointed director of the Reconstruction's activities in that field.

The place selected for conferences between the two was the President's Rapidan fishing camp in Virginia. The chief executive and Gifford, who is president of the American Telephone & Telegraph company, expected to meet there before lunch time today.

The personnel for carrying out the President's idea that relief should be furnished by local communities, counties and states, in addition to Gifford, included Eric C. Cragdon, of Columbus, Ohio, as assistant, and 50 members of advisory committee.

Of 60 prominent men and women asked to carry out the plan, fifty-two accepted the invitation yesterday, two declined on account of illness and six had not been heard from. Mr. Hoover expected to add to the list, probably after the week-end conferences. Several sections of the country not represented will have members before the committee personnel is completed.

Responses to his invitation to serve with Gifford were described by President Hoover as "splendid."

been running full time, while others have been running overtime.

State Says 46

An indication of the favor with which Hercules Rollers have been received in the purchase of 40 rollers by the state highway department of Pennsylvania, it has also been the choice of highway departments of New York and North Carolina this year.

The rollers carry many new features and characteristics developed by Osgood engineers, and have been described by contractors as an unusually well built piece of machinery, Owens said.

The rollers have three forward and three reverse speeds, and many other features.

In addition to the large amount of business being done in road rollers manufactured by the Hercules Co., the Osgood Co. sales of shovels and cranes for this month will far exceed those for last August.

Made in Four Models

The rollers are made in four models, costing from \$2,000 to \$5,000 each. Their weight varies from six to 15 tons, covering every type of road construction and maintenance work.

The acceptance of the roller among contractors has been unusually good as the rollers were first marketed early last year. Only a season and a half was required to introduce them to road workers throughout the country.

Hercules engineers designed the new roller to meet a demand not met by any other roller on the market. Extensive surveys in every part of the country and on every type of job was made by the engineers who asked contractors and state highway men what features were most desirable in a roller, particularly features which were not embodied in any other roller on the market.

Speed Increased

Building the machine to embody all the features desired by road builders, the engineers have speeded a roller with speed, flexibility, and unusual stamoa. Handling of modern road construction materials including bituminous and asphaltic compounds requires greater speed in rolling. The Hercules will move five and one-half miles an hour both forward and backward, as compared with a forward speed of three miles an hour and a backward speed of one and a quarter miles an hour in the conventional roller. The Hercules can do 50 per cent more work in the same length of time than the average roller, the Hercules engineers say.

Easy steering has been made possible by the use of roller bearings. A flexible, smooth flow of power for backward and forward movements of the roller has been made possible by the use of a specially designed transmission and the use of six-cylinder engines exclusively. Most roller power plants in the past have been four cylinder engines.

Maintenance cost and durability, two features stressed by road builders, have been affected by the use of steel in many places where iron is generally used. Ordinarily, the rolls are made of grey iron, but in the Hercules they are of semi-steel, giving strength and ability to resist abrasion.

A satisfactory scanner to tear up old roadways has been designed of steel, and has stood the most severe tests.

GENERAL BUTLER TO QUIT MARINE CORPS

Hoover To Approve Retirement of Stormy Figure of Many Wars Oct. 1.

his running for election to the senate or to the house as a Republican representative of the Philadelphia suburban district where he has bought a home.

As Democratic as he is a dramatic, Butler, now commander of the Quantico Virginia, marine base, probably calls more of his men by their first names than any other general.

He recently has been engaged in conferences involving such widely diversified personalities as Premier Mussolini of Italy, Alphonse Capone, the gangster, and the Haitian minister to the United States.

Gets in Mix-up

In a Philadelphia speech last January he declared Mussolini had run down a child and failed to stop his car.

The remark precipitated Butler into a full-blown international episode which ended with a state department apology to Mussolini and plans for court-martialing the general. The court-martial later was dropped.

Three months later the general placed a bony foreigner on a newspaper headline quoting Duval Bellegarde, premier minister from Haiti, as saying that a Haitian Butler received his second medal of honor was non-existent. The general abruptly challenged the statement and brought from Bellegarde the explanation that he had been misquoted.

Shortly before, Butler had declared in a Chicago speech that Al Capone would be deported when public opinion becomes aroused.

When Philip Morris borrowed Butler during 1924-25 to act as director of public safety, he fought bootleggers and other lawbreakers relentlessly until replaced by another man.

A similar mission brought him a leave of absence from the marines last May and carried him to Oregon where he reorganized the state police at the request of officials.

Court Martial Colonel

In 1926 Butler had Colonel Alexander Williams of the San Diego marines base, his host at dinner, court-martialed on charges of drunkenness.

Since the time in 1896 when he enlisted in the marines at 17 "by putting his age up a bit," General Butler has served in Cuban wars, the Philippines, China, Porto Rico, Panama, Nicaragua, Mexico, Haiti, and France.

Among his decorations are two medals of honor, for gallantry in Haiti and at Vera Cruz; distinguished service medals of both the army and navy for his work as commander of Camp Pontaterre at Espinal during the world war; a Mexican rebellion breast medal; two French and one Haitian decorations and 10 campaign medals.

To his men he is known behind his back as "old gimlet eye."

by robbery bullets at this point in the fight, a taxicab automobile swung into the line of fire. Gloria died 30 hours later.

Three policemen in a taxi closed in but the gunmen sped away toward Morris avenue and 162nd street, where two more policemen attempted to shoot them. These two were felled by bullet wounds.

At Dyckman street and Broadway, the three policemen in the pursuing taxicab forced the hand car against the curb. Here, the lead driver, was killed outright and the other, the robbers, John Frecht, The second gunman, Martin Bachorik died a few minutes later.

Money Found

The tax used by the pursuing detectives was bullet punctured and its windows shattered.

When a lone patrolman yanked open the bullet-marked cab, the robbers, the package of stolen money was found intact. In the back there was 71 empty bullet shells and seven plaques.

In Greenwich Village, another policeman, Bertrand Ray, crashed into a truck while speeding across to be used in an attempt to save the lives of the two policemen. He was taken to a hospital. His skull was fractured.

SIMPLICITY MARKS LA FOLLETTE RITES

Two Sons Among Pallbearers at Brief Funeral Services at Madison.

By The Associated Press
MADISON, Wis., Aug. 22.—The body of Mrs. Belle Case La Follette rested in a grave beside that of her husband, Senator Robert M. La Follette today.

With her sons, Gov. Philip E. La Follette of Wisconsin, and Senator Robert La Follette among the pallbearers, she was carried to the grave in the family plot after a brief funeral service here yesterday.

Dr. Max Otto of the philosophy department of the University of Wisconsin, a close friend of the family, read an appreciation of Mrs. La Follette's life at ceremonies in the rotunda of the state historical library on the university campus. At the grave, the Rev. H. H. Lumpkin of the Grace Episcopal church led a simple service.

Mrs. La Follette—"The Counselor" of her political family—died in Washington Tuesday after an operation. After the death of her husband, once Wisconsin's governor and a presidential candidate in 1920 she retired and was engaged in writing his biography.

BURNS ARE FATAL TO FOREST YOUTH

Passing Motorist Extinguishes Flames Following Explosion at Musgrave Home.

Special to The Star
FOREST, Aug. 22.—LeRoy Musgrave, 15-year-old son of Mr. and Mrs. Harvey Musgrave residing five miles west of here on the Lincoln highway, is dead, and the Musgrave residence is badly damaged by fire as the result of an explosion at the home yesterday about 5:30 p. m.

The youth died today at 7:30 a. m. at McKitch hospital in Kenton where he was removed by his brother Lawrence and a neighbor, Ralph Marling, following the accident. He died without regaining consciousness of burns which completely covered his body and face.

The explosion occurred when the boy is said to have poured crude oil on a smoldering fire in the kitchen of the Musgrave home. He ran through a hallway, into the living room and out into the yard where a passing motorist extinguished the blaze with a fire extinguisher which he carried in his car. The motorist also succeeded in extinguishing the fire in the house. Considerable damage was done in the kitchen and clothing hanging in a hallway and the davenport in the living room were also damaged when they caught fire from the boy's clothing. The name of the motorist was not learned.

The boy's death is the third to occur in the Musgrave family since November last year. He attended the Mt. Blanchard school where he was a pupil in the seventh grade last year and was a member of the Union chapel Sunday school.

Surviving his parents are five sisters, Margaret, Marcelle, Marian and Madeline, and three brothers, Lloyd, Lyon and Lawrence.

Funeral services will be held Sunday at 2 p. m. at the Union chapel church and interment will be made in Huxton cemetery here.

PRESERVE PROGRAM TO BE UNCHANGED

Retrenchment Program Will Not Affect Development.

By The Associated Press
COLUMBUS, O., Aug. 22.—Development of the Roosevelt game preserve in Soloto county, will be unhampered by the financial retrenchment program recently announced for the refuge, according to a statement by A. F. Moos, chairman of the conservation council of Ohio.

Prompted by fears among sportsmen that the project might be abandoned, the statement said that production of wild life is the preserve here is intended for the whole of the program.

"We expect to operate the game preserve in such a manner that it will produce game and wild life in abundance, and this will be done by experienced supervision without increased cost," Moos said. "We are cutting out unnecessary overhead and at the same time instituting game management principles such as law enforcement, fire patrol, vermin control, and food for various kinds of wild life, winter feeding, propagation of coons and pheasants on the preserve as well as ruffed grouse, and other wild life."

2 GERMAN AIRMEN OFF ON LONG TRIP

By The Associated Press
BERLIN, Aug. 22.—Willy Eder and Christian Johannsen, German airmen, hopped off this morning for Lisbon on a flight which will carry them across the Atlantic to the United States.

Fernando Costa Veiga, a Portuguese, also was aboard. They were flying a 300-horsepower plane formerly owned by Charles A. Levine, an American aviation enthusiast.

Mechanics said their plane was equipped with special tanks containing enough fuel for 40 hours in the air.

NEW WILL ROGERS PICTURE OPENS AT PALACE ON MONDAY

WILL ROGERS opens in his most recent talking talkie, "Young as You Feel," playing at the Palace Monday, Tuesday and Wednesday. Principals in the supporting cast are Fifi Dorey and Lucien Littlefield.

George Ade wrote the play. Father and the Boys, from which the picture was adapted. Rogers had it understood before he started in talking pictures that he was not to be asked to kiss his leading lady, and in spite of the vivacious Fifi and her American Frenchness, there are no kisses in Rogers and Dorey in this picture.

Transfers in Real Estate Increase; Loans Slump

Jump of Four in Deals Over Last Week Shown by Recorder's Records; Five Mortgages Placed on Property Here.

While the number and size of mortgage loans on Marion and Marion county property decreased from last week, real estate transfers increased in number, jumping to 26 for the week ending Friday as compared with 18 filed during the preceding week, records of County Recorder Charles A. Markert show.

Five mortgages totaling \$10,817.46 were placed on property in the city and county during the week ending Friday. In the preceding week, eight loans aggregating \$20,477 were placed. An unusually large mortgage was responsible for the high loan figure for the week ending Aug. 14.

In the week ending Aug. 21, loans totaling \$6,300 were placed on county property; mortgages amounting to \$4,317.46 were placed on city property. Building and loan companies placed one loan during the week for \$117.46. Banks and individuals loaned \$10,500.

Realty transfers for the period follow:

Wallace S. and Kathleen Anderson to the Marion Mortgage Co., Marion lot, \$1.

Otis Boyd to C. F. Medaris, 189 acres in Montgomery township, \$1.

Otis Boyd to Lewis H. Dunson, Prospect lot, \$1.

The Prospect Citizens' Bank to John T. and Bernice C. Bonwell, Prospect.

Otis Boyd and wife to Union Central Life Insurance Co., 211 acres in Montgomery township, \$1.

GAYNOR, FARRELL ON OHIO PROGRAM; ACTION AT MARION

Janet Gaynor and Charles Farrell in "The Man Who Came Back" are at the Ohio Sunday, Monday and Tuesday. This is a return engagement of the picture, which is fast entertainment but does not compare with their former pictures.

This team's latest picture, "Merely Mary Ann" has been released and probably will show in Marion early this fall, along with other stellar pictures which have been booked at the Palace and the Ohio.

"The Man Who Came Back" moves from New York City to San Francisco and to Shanghai before the story is ended. A Robby Jones golf short is on the bill.

Maynard Dane will get a thrill out of "Alas, the Bad Man" closing at the Marion tonight. Those who like westerns, and who don't get a kick out of a wild and woolly tale once in a while, will like this action picture.

It's a story of cattle rustling and false accusations that have to be cleared up with plenty of gun shooting and fast riding. Ken goes west to help his father round up a gang of cattle thieves who have accused the older man of stealing cattle. Virginia Brown Fells is the daughter of one of the victims of cattle stealing and when Ken arrives, a love affair develops. Needless to say that before the story is finished Ken has knocked out one of the thieves and is battling with another when the sheriff and a posse arrive.

A comedy, adventure and short subject are on the bill.

Ohio's New Tax Laws

This is the 11th of a series of articles by International News Service, explaining the tax laws adopted by the 26th general assembly.

Whether or not they pay an income, investments are to be taxed under provisions of the new personal property tax law passed by the state legislature this year.

One part of the new law specifically provides that investments paying no income are to be taxed at two mills on each dollar of the value.

Higher taxation charges will be levied against those investments which show an income, however.

Paying investments are to be taxed at 5 per cent of the income yield. Bank deposits will be taxed at the source at the rate of two mills on the dollar, and money will be taxed at the rate of one mill higher.

A two mill levy also was ordered against shares and capital in financial institutions, the tax to be paid at the source and not by the shareholders.

A five-mill levy was ordered assessed against shares in companies which is used by dealers in intangibles, and against the net worth of Ohio insurance companies.

Allowing for bad debts, a three-mill levy also was provided for current accounts receivable in excess of current accounts payable.

RADIO NEWS AND PROGRAMS

Variety To Feature Sunday Radio Programs

Spirited and old songs, includ-
ing "Swing Low, Sweet Chariot"
and "Massa's in de Cold, Cold
Ground" will contrast with "Black
Bottom" to be played by the Levee
Band in the Southland Sketches at
9 a. m. Sunday.

Scores from the program will be
depicted musically in Troika Bellm,
with "Ukraine" and "Golden
Cloud" played by a balalaika or-
chestra directed by Alexander Kiril-
loff over an NBC network at 11:30
Sunday. Genta Fomalirova, soprano,
will sing "On the Last Penny."

The voices of Dorothy Beckloff,
contralto, and Helen Thomas,
soprano, will be featured
when the Concert orchestra, under
the direction of Walter Legan, is
heard from 12:00 to 1:00 p. m. Sun-
day, over a WEAF network. Miss
Beckloff will sing "Smiling Thine"
and Hubbell's "Poor Catterly,"
and Miss Thomas will sing "A
Birthday" and "Moonlight Star-
light."

Works of Scandinavian compos-
ers make up the concert in which
Julia Claussen, contralto star of
the Ravinia and Metropolitan
operas, will appear as guest soloist
with the Ravinia Opera orchestra
conducted by Eric De Lamarter, at
3 p. m. Sunday. Miss Claussen
will sing the Valnes Song from
Peterson's opera "Armlot," and the
orchestra will play Alfvén's "Sym-
phony No. 3."

Notable contrasts in religious mu-
sic of the past and present will be
achieved by the presentation of
Haydn's work, "With Verdure
Clad," and Dennis Taylor's motet,
"Before the Shrine," during the
broadcast of the Cathedral Hour,
over the WABC-Columbia network
from 4:00 to 5:00 p. m. Sunday.

New, untold, first native
American disease was discovered
after the great San Francisco fire
of 1906 will be told by Dr. Howard
W. Haggard, associate professor of
physiology at Yale university, dur-
ing his talk over the WABC-Col-
umbia network at 8:00 p. m. Sun-
day.

Robert Ringling noted American
baritone, will be guest artist with
the Chicago Philharmonic orches-
tra during the concert to be given
at Loyola Stadium from 9:30 to
10:00 p. m. Sunday and which
will be broadcast over an NBC net-
work.

CLEARINGS OF LOCAL BANKS OFF \$50,000

A decrease of more than \$50,000
in bank clearings this week, under
that of last, is shown in a check
of figures at the clearing houses
today. Clearings last week, accord-
ing to the figures, totaled \$249,933.53
while this week's clearings reached
\$214,708.68.

The decrease, it is pointed out
by bankers, does not necessarily
indicate a decrease in the volume
of business in the city during the
week, as the clearings represent
only the exchange through the
local banks and not the total
volume of business in the city.

Electrochemists of a St. Louis
company have developed a process
for the production of zinc that is
99.99 per cent pure, the ore being
dissolved in acid and the solution
electrolyzed.

The opening of a new automo-
bile road connecting Vienna and
Budapest has reduced the time re-
quired for travel between those
cities from eight to five hours.

Honor Birthdays

NEVADA, Aug. 22.—The members
of the Eliters club enjoyed a
party at the home of Miss Leahy
Welch, south of town, on Wednes-
day evening, honoring the birthday
anniversaries of two of its mem-
bers, Miss Welch and Mrs. Ethel
Peck. Lunch was served and a
social time enjoyed. Mrs. Fannie
Linsinger, a former member of the
club, and little daughter Mary of
Delaware, were guests.

"Blushing to the roots of his
hair" is an old saying. But the
flush doesn't stop there, did you
know that?

KILLED BY SHOCK IN WINE POOL

A view of the basement in the Milwaukee, Wis., home of Mrs. Helen Vashkevich (center) in which the woman died when electricity was conducted through a loose wire by means of a pool of wine in the cellar floor. The wine had been dumped by prohibition agents when they raided the house. Going to the cellar to clean up the spilled wine and touching a defective light fixture burning by the agents, Mrs. Vashkevich was killed by a 220-volt shock through her body.

FAMILY REUNIONS

As in the past The Star is
anxious to publish accounts of
family reunions in Marion and
vicinity. Due to the large num-
ber of reunions here each sum-
mer, however, it will be im-
possible to print lists of per-
sons attending. Persons want-
ing to be included in accounts of
reunions are asked to send names
to the office of The Star, 222
West 11th St., Marion, Ohio, at
least one week before the reu-
nion, so that the accounts may
be complete.

C., D. & M. Electric Co.

No Other Dollar Buys As Much As the
Dollar You Spend for Electric Service.

SAVES HOME FOOD WASTE

Buying in Large Quantities on
"Bargain Days" Made
Possible by Unit.

Millions of non-users of electrical refrigerators regard them much as they do a \$20,000 home or a high priced automobile—they class them as an expensive luxury.

As a matter of fact, the economy effected by the use of electric refrigerators is such as to class it as a necessity rather than a luxury.

The most important item in the family budget is the cost of food. Government research has found that the average food bill is something like \$400 a year. Government statistics also show that a naverage of 20 per cent of all food purchased is never consumed. At least one-half of this 20 per cent is directly caused by spoiled food something over \$90.

In order to overcome the loss occasioned by food spoilage, the average family employs the so-called "small lot buying," with which is always expensive. On the other hand, preserving the average family could preserve a week's supply of food, the same purchased in quantities on the so-called "specialty" days where the average cost is considerably under the day-by-day price. For instance, you can buy a whole ham for some thing like \$1.50, while 5 slices cut at the market will cost in the neighborhood of more than 60 cents. Lamb chops ordinarily cost 40 cents a pound, while a large cut will cost in this neighborhood of 25 to 27 cents a pound. The same is true on perishables.

Quantity Buying Feasible

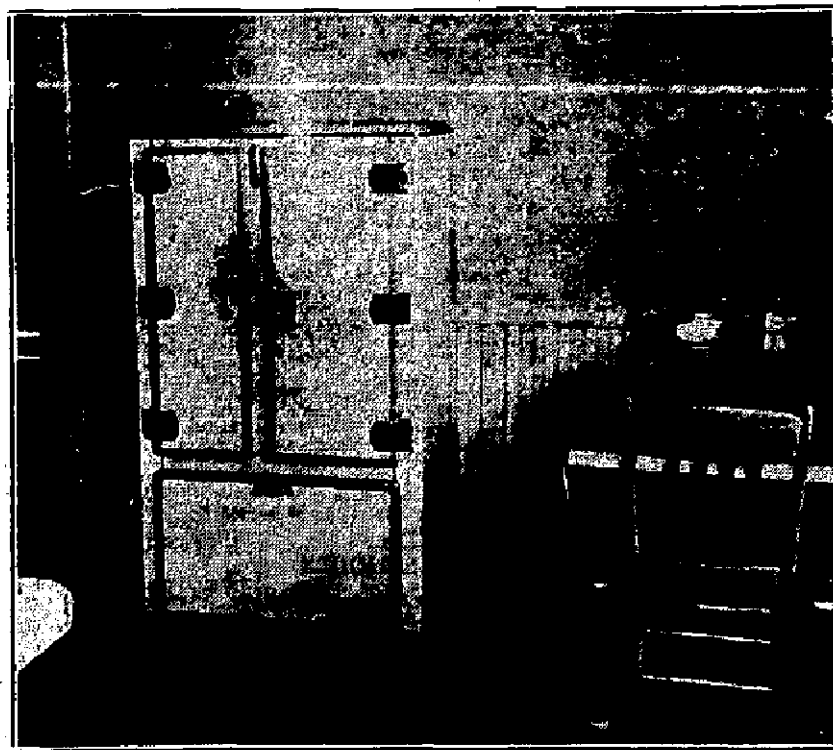

The saving to be effected by quantity buying on the so-called "specialty" days, will show the house-keeper by a careful study of the home markets in the local newspapers a saving of 25 to 50 per cent over food purchased in small lots on regular days. Permitting however, only 20 per cent saving in food costs for the average family will represent a \$120 saving a year. The total savings thus represented, very conservatively stated, in food spoilage and food cost, represents a \$180 a year. Dividing this \$180 into savings represents \$15 per month. This amount alone which is actually saved, often represents more than the amount called for on the monthly budget plan of purchase.

These statements are so evident to present owners of electric refrigerators that they often trade in their smaller boxes for larger ones which permit them to fully economize in purchasing and preserving their food.

When a statement is made that an electric refrigerator will pay for itself, such a statement is an absolute truth to which every owner of electrical refrigeration will agree.

Electrical refrigeration provides a convenience to the average housewife exceeded, perhaps, only by the electric range. Electrical refrigeration, being dry refrigeration, always provides for a clean, "sweet" box, requiring little attention, and very little cleaning. The design is usually of such proportions as to permit the use of the lower shelf without stooping over. It is neither necessary to hang up the "ice" card nor wait for the "ice man" and the opportunity to

ECONOMICAL INVESTMENT

The handsome De Luxe model 2 refrigerator, shown in the above picture, is in the home of Henry Drake on north Prospect street. Drake added this beautiful box to his home last Christmas and feels that it is one of the most satisfactory purchases in "home equipment" he has ever made. The box is of eight cubic feet capacity, finished in two-tone porcelain, and equipped with an electric lighted interior. The ice-freezing compartment is of large size permitting ample freezing of desserts and ice cubes. This particular model is equipped with the ice-thermal tube—Kelvinator's own—which permits automatic freezing of ice cubes in less than eight minutes and also has the famous Kelvinator front chest in which to keep meat, game and other foods of like nature frozen for an indefinite time. In speaking of this Kelvinator, Drake said, "for a long time I looked upon an electric refrigerator as something to have some day but I now feel that I should have purchased one long ago and I really believe the economies we find possible, more than pay for the cost."

Buy in quantities does not necessitate frequent shopping trips. Ice cubes for chilled drinks are available without the usual chipping of the ice and frozen desserts are both inexpensive and easily made.

Government research has determined that any temperature above 50 degrees is not safe for proper food preservation. At such temperatures, bacteria multiply rapidly which, of course, causes sickness and even death as a result. The average electric refrigerator maintains a temperature of very close to 40 degrees which retards all bacteria growth and preserves all food at a proper temperature.

Sales Increase

In the speaking of the many merits of the electrical refrigeration, the question of health is sometimes overlooked in favor of convenience, cleanliness, economy, etc. But in the proper analysis an electric refrigerator provides a guarantee of health for the whole family, which alone justifies its purchase.

There can be no question but what there is a growth of appreciation of the value of electrical refrigeration for every home. As evidence of this is the tremendous sales, in the face of general business depression, that the refrigeration industry has enjoyed the last six months. This could not have been accomplished in times like these except for the fact that electrical refrigeration provides a

MOTHER CAN GET LAST FORTY WINKS

New Electric Timer for Hotpoint Ranges Is Almost Human.

"The beauty sleep"—that last "forty winks" that women of all ages have regarded as so essential to their complete recuperation from the worries and the vicissitudes of yesterday, is possible now, to modern mothers whose kitchens are really modern.

General Electric engineers have modernized the kitchen clock—beautified it and electrified it so that now father is awakened by the aroma of his morning coffee which this swanky, almost human time piece starts to "perk" at whatever moment the "lord of creation" wishes his matutinal mocha and java to start "perking."

No longer need mother awaken just at the hour when sleeping as bent to dash to the kitchen to "put the coffee on" while father shaves and bathes.

This new "licker" does the job. It is a beautifully designed tele-

chron clock and timer, finished in shining chrome plate and sets on a black enameled base.

Attached to the convenience outlet on the new General Electric Hotpoint range, this telechron timer can be set at night to "put the coffee on" the next morning at any time desired. Mother puts the coffee in the basket of the percolator, puts in the necessary amount of water, connects the percolator and the timer cord to the range outlet, sets the small "ON" dial at the left of the clock face at "7:15," puts out the cat "and so to bed."

Exactly at 7:15 the next morning the percolator current and in a few seconds the percolation begins. When father drinks his coffee has "perked" long enough he disconnects the percolator, connects the automatic egg cooker, puts in his eggs and water, and when he has finished his shave and bath, he sits down to his automatically prepared breakfast and mother has had her beauty sleep while all this has been going on.

The advanced 1931 models of Hotpoint electric ranges with this amazingly beautiful and efficient telechron timer, is on display in the home service department of the C. D. & M. Electric Co., where the simplicity, speed, economy, cleanliness and convenience of electric cookery is shown by actual demonstration to the women of Marion.

CUTS COST OF
HOUSE UPKEEP
SLATE ADDS CHARM TO HOME

Roofing, Heating Contractor
Handles Wise, Round Oak
Furnaces.
Slate is entering the roofing
field stronger than ever before,
according to Sam Romoser, Roof-
ing and Heating contractor of 302
East Center street.
He says the price of slate has
been reduced to practically the
same level as the best grades of
manufactured roofing in compar-
ison with the price and durability.
He says that if slate were laid
single lap as are some shingles
the slate would be far cheaper
than another roof.
Romoser illustrates the dur-
ability of slate by calling atten-
tion to the architectural master-
pieces, centuries old that are still
sheltered with the slate roofs that
were laid when the structures
were built.
Such cases as these, and many
of Marion's oldest homes which
are still sheltered with the origi-
nal slate roof that was laid when
the homes were erected, prove
that the durability of slate makes
it the most economical roofing to
use.
When you select a roofing
material its first relative qualities
should be a first consideration.
The personal safety of your
family and the preservation of
your valuable possessions may de-
pend upon your choice of roof-
ing material.
Even though your home is now
roofed with a temporary material
it is not too late to roof with
slate right over the old material.
The work when finished will be
as beautiful as permanent and
as fire resistant as though your
home had been originally equip-
ped with a slate roof.
Every slate roof may be unique,
for slate is now cut into various
sizes and shapes that will harmo-
nize with the general plan of the
building. Romoser's advice to any-
one contemplating building a new
home is to build well with the
best materials, and your home
when completed will be one of
beauty and one that will last.
Beauty and durability add lit-
tle to the cost of a building and
much to its value. They are
bound to reflect credit on the
owner and any small difference is
quickly returned through reduced
upkeep expenses and added satis-
faction on the part of the owner.
Romoser also is dealer for the
Wise & Round Oak warm air
heating system. A full range of
sizes are available in these two
high-grade heating units in order
to exactly take care of every re-
quirement. These heating units
have proven their fundamental and
scientific advantages in actual
service.
Pictured here is the home on
the Harvey Gracely farm located
on the Upper Sandusky road. This
home is heated with a Wise Warm
Air furnace and is sheltered with
a slate roof.
Spouting too is an important
thing to be thought of at this time
of the year, many people neglect
to inspect their spouting regularly
this neglect is expensive for it is
sure to rust. If the rust spots are
not repaired immediately the
whole spouting will soon decay and
fall away. This is not only harm-

PAINT PROTECTS ALL
PARTS OF BUILDING
Winter Weather Causes Rapid
Deterioration, W. N.
Crouso Says.
The winter elements such as
snow, rain, sleet and ice and the
changing temperatures in time will
rot the wooden parts of any
building and rust all the metal
parts, says W. N. Crouso, painter
and decorator of 125 1-2 South Main
street.
So in order to defeat nature we
have to use such methods as are
known to us. A good painting job
protects wood from rot and metal
parts from rust.
You will be interested to know
that you can improve your prop-
erty, protect the money invested in
it, raise your standing in the
community, please your entire fam-
ily and save money all at the same
time. Sounds too good to be true
—but it's an actual fact.
When a house reaches the stage
where it needs painting it de-
teriorates fast. Almost before you
know it, there is split siding,
steps and porch floors, decayed
bases and columns, and leaky gut-
ters and spouts.
It costs real money to repair
these—often more than the origi-
nal cost of painting. Even then
you have not eliminated the neces-
sity of painting. It still must be
done and the longer you put it
off the more it will cost, for dried
out, porous wood takes much more
paint and more of the painters'
time to spread it on.
Is it logical then to assume that
you can gain every advantage
mentioned above, through prompt
action on your part, says Mr.
Crouso.
Mr. Crouso also says the fall

BUILDING COSTS
TAKE BIG TUMBLE
Construction costs are down for
all types of buildings, but these
low levels may not continue, points
out the National Association of
Real Estate Boards in urging
building in communities that can
tenant new structures.
A department of labor report
made in the last week of June
shows a decrease of 19.5 per cent
in estimated costs of structures
covered by building permits issued
in 342 of the larger cities of the
country, as compared with April.
Residential building costs dropped
15 per cent and non-residential
costs dropped 20.9 per cent from
the April totals.
The Engineering News Record,
reporting on an extensive survey
completed last month on building
trades wage scales, shows a 14 to
27 per cent decline below scale
throughout the country. The sur-
vey indicates that average actual
wages received are 17 per cent be-
low scale for carpenters and brick-
layers, 19 per cent for plasterers,
14 per cent for ironworkers and
27 per cent for common laborers.
